IV. Principal's report-Three weeks into school and doing well! All safeguards are working well so far, thanks to the diligence of everyone!

-SWIVL is up and running. Some hiccups, but as of today, we seem to have perfected the system!! Dr. Nardi sent home, via email, virtual learning guidelines to all school families, since virtual learning is synchronous and attendance is recorded. A one-day grace period is extended to students new to the system. Overall, the system is working. SWIVL seems to be unique to Seton, so Marketing needs to promote this. So far, five daily SWIVL users, with others floating in and out.

-the Parishes repaired alot of water damage and plaster repair and painting to the school, so thank you very much!! Door #2, a stairwell near Reinl Ctr. that exits to the playground have been repaired, with the teacher's lounge, gym and cafetorium possible in the queue.

-the 8th St. door frames have been repaired, which is a huge security improvement!

-the City is coming on 9-17 to remove a beehive in a tree near the playground.

V. Pastor Designate Report-none
